REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The prior art of record discloses methods for automated detection of abnormal regions in volumetric images through the use of statistical techniques. The instant invention allows for a search and detection of a target region that includes voxels, which have been assigned to a target class as recited in limitation (e) of claims 16 and 32. This allows the method and system of the instant invention to be both sensitive and specific, providing a high probability of detection coupled with low false alarm rate. Limitation (e) recited in claims 16, and 32, in combination with the other elements of the claims are not disclosed or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 16-17, 32-33 (now renumbered 1-4 for issue) are allowed.
